COMMISSION ON WATER
RESOURCE MANAGEMENT

Ms. Rae Loui, Deputy Director
Commission on Water Resource Management
Department of Land & Natural Resources
P.O. Box 621
Honolulu, Hawaii 96809

Dear Ms. Loui:

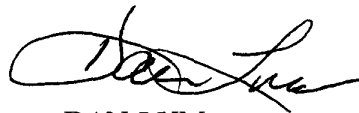

Kaupakulua-Kulamalu Well Construction Permit TMK 2-7-15:34 (portion), Maui

In accordance with Section 168-129 (f to h) of the Water Code and on behalf of the applicant, Kulamalu, Inc., we request an amendment to the subject permit to relocate the well approximately 600 feet south of the original location. The new site is shown on the attached 1" = 2,000 ft. scale USGS map. The purpose of this move is to meet Hawaii Well Standard's guideline for minimum distance from existing cesspool/septic tank. The change in location does not affect any other aspects of the well such as proposed use, capacity, aquifer system, etc.

Also, we wish to notify you that plans are to begin mobilization and well construction in two weeks, or soon thereafter, and therefore would appreciate your earliest consideration and response (verbal or fax).

If you or your staff have any questions or concerns, please do not hesitate to call me. Mahalo!

Sincerely,

DAN LUM
