County DWS to hold four April community meetings on proposed water conservation rules

The County of Maui Department of Water Supply (DWS) invites the community to four April meetings – three in person and one online -- on proposed water conservation rules.

All four meetings are 6 to 8 p.m., and locations are as follows:

- Upcountry in-person meeting: April 8, 2025, at Mayor Hannibal Tavares Community Center.
- South Maui in-person-meeting: April 9, 2025, at Kīhei Community Center.
- West Maui in-person meeting: April 15, 2025, at Lahaina Civic Center Social Hall.
- Online meeting: April 16, 2025; email water.resources@mauicounty.gov for meeting link.

Light refreshments will be served at in-person meetings.

DWS is proposing a bill that, if approved by Maui County Council, would increase water conservation in all sectors, including irrigation practices, planting and landscaping, commercial applications, water waste and new development.

For general information on water conservation, visit the DWS webpage at <https://waterresources.mauicounty.gov/153/Water-Conservation> or call (808) 463-3110.
